PROFESSIONAL SUMMARY

Accomplished Fullstack Developer specializing in Angular and .NET Core, with extensive experience developing Augmented Intelligence systems and integrating Generative AI solutions. Proficient in architecting scalable frontend and backend infrastructures, optimizing Developer Experience (DX), and implementing advanced data-driven applications. Currently pursuing a degree in Data Science at the University of Buenos Aires, combining technical expertise with a strong analytical foundation.

EXPERIENCE

Augmented Intelligence System for General Problem Resolution

Developed a sophisticated system to assist agents in complex problem-solving scenarios through AI-driven insights and workflow optimization.

Technologies: *html, css, typescript, angular, sass, ngx-graph, c#, asp.net core, entity framework core, sql, sql server, git, docker*

AI-Driven Recommendation Algorithm for Generative Chat Responses

Engineered a configurable recommendation engine leveraging Generative AI to provide context-aware chat responses and enhanced user interaction.

Technologies: *html, css, typescript, angular, sass, python, fastapi, pydantic, psycopg, uvicorn, google genai, postgresql, pgvector, c#, asp.net core, entity framework core, grafana k6, google cloud platform (gcp), git, docker*

Commercial SEO-Optimized Web Platform

Designed and deployed a high-performance commercial website for a local business, focusing on local SEO optimization and modern web standards.

Technologies: *html, css, javascript, typescript, astro, tailwind*

SKILLS

Programming & Frameworks: HTML, CSS, JavaScript, TypeScript, Angular, C#, ASP.NET Core

Database & ORM: SQL, SQL Server, Entity Framework Core, PostgreSQL, pgvector

Tools & DevOps: Git, GitHub, Docker, Google Cloud Platform (GCP), Grafana K6

Specialized: Dependency Management, AI Integration, Prompt Engineering

EDUCATION

University of Buenos Aires (UBA) - B.S. in Data Science, 2025 - 2032

Focus: Mathematics and Computer Science

IBM - AI Fundamentals Certification, 2026

Fray Luis Beltrán Secondary School, 2017 - 2024

LANGUAGES

English: Advanced (Professional Working Proficiency in Spoken and Written)
